

Panthera

antifingerprint surfaces

ENJOY
Chill

Premium surfaces at reasonable pricing!

Unique visual and haptic properties

- ultramat surface such as Panther's skin
- antifingerprint equipment for stable quality and sublime optic
- easily repairable in case of microscratches by rubbing / deeper damages by moderate supply of thermal energy, i.e. iron

Very easy handling

- PANTHÈRA can be applied to desired core material with common glues, PUR, etc.
- PANTHÈRA / NATRIX panel products can be processed easily with every common woodworking machinery
- no splitting of edge
- no stress whitening because of solid coloured material
- surface protected by special developed heat-sealing-film

Universal applications

All areas of highly frequented interiors and stressed functional surfaces. Vertical and horizontal use possible!

- manual furniture construction
- furniture - and supplying industry:
kitchen, bath and more
- shop fitting
- wall panelling
- decorative interior fittings

Ecologically worthwhile

The surfaces PANTHÈRA / NATRIX are free of PVC, phenol and melamine, antibacterial, food safe and easily cleanable.
