

TECHNICAL DATA

Core:	Honeycomb core made of polypropylene with internal 3D structure
Top facing:	VetroTec - glass laminate
Bottom facing:	Surface-laminated with glass fiber 80 g
Size:	3050 x 1020 mm standard panel (max. width on request: 1250 mm)
Total thickness:	8 mm (6 mm core + 2 mm VetroTec)
Features:	<ul style="list-style-type: none"> ▪ Very high brilliance due to the layer of UV and abrasion resistant paint applied to the upper side of the glass-effect laminate (brilliance 92 gloss/abrasive resistance 6N) ▪ Surface resistant to common domestic detergents ▪ Very high compressive strength
Colours:	<ul style="list-style-type: none"> ▪ Standard colours: white / magnolia / black / charcoal grey / silver grey / red. On request, the material can be produced with other decoration patterns and in other colours.
Fields of application:	<ul style="list-style-type: none"> ▪ Kitchen ▪ Bathroom ▪ Decoration of walls and interiors
Uses allowed:	<ul style="list-style-type: none"> ▪ It is possible to drill, glue, saw and mill the panel without damage.

Product description:

RenovaTec is a top quality material for the lining of walls. It is made of PP and acrylic and is waterproof, stain-proof and thermo-stable.

The surfaces, specifically designed for use in rooms featuring high humidity, are easy to clean and maintain. RenovaTec is also designed to replace tiles or to be laid over already tiled surfaces. Perfectly restyle your home with very little effort!
